The ladies of the Hawaiian Relief Society all took a much-needed rest yesterday. Rations are being distributed to the needy today as usual.

No one who has any business to do favors the total suspension of business. The suggestion only comes from those who have nothing else to do but to keep themselves scared and endeavor to frighten others.

Thirteen natives have been conveyed to the cholera station from the steamer Keau Hou for fishing in the harbor. It is openly stated that fishing is done off the quarantined steamers every night in the twelve to four watch.

Ed. B. Giffard was thrown from his horse on Saturday afternoon and severely injured about the head. He was conveyed to Dr. Herbert's residence in an unconscious state but came to in about an hour and was sent home.

Old Mr. Norton, who keeps the soda-water and cigar store on Fort street, remembers the cholera epidemic in 1832-3-4 on the Eastern coast of the United States. In New Bedford, Mass., and in New York city he saw many people drop dead in the streets from it.

THE CLAUDINE AT HILO.

PASSENGERS ARE GIVEN TEN DAYS IN QUARANTINE.

The Populace Ready with Fire Hose to Prevent a Landing-Stones Thrown at Boats' Crews.

When the steamer Claudine arrived here this forenoon, there was great excitement. Sheriff E. G. Hitchcock and other Hiloites did not relish the idea of being put in quarantine for ten days on Coconut Island, which the people at a public meeting had decided on, as also the local Board of Health.

Two of the Claudine's boats went into the Wailuku river for water, and some persons thinking the men were coming ashore threw stones at them.

The fire engine was taken down to the wharf to throw water on the passengers in case they were determined and attempted to come ashore. Some persons were very much excited, and at several public meetings there was great excitement. It is to be hoped all will cool down soon and act reasonably.

A telephone has been put up so that we can talk with our quarantined friends.

The rice that came by the Claudine is to be taken to Coconut Island, emptied out of the bags and fumigated, after which it will be placed in other bags. I am told the Japanese do not like the idea of eating it, but think they will get over their fastidiousness.

We expect the Hawaii here in a day or two with a big lot of rice, enough to last a month I think. I suppose Hilo is over its extraordinary excitement for a short time.

LATER.—The rice was not taken out of the bags but was fumigated in the original bags.

The Maui passengers have come ashore and will be quarantined with those belonging to this island ten days.

Hilo, Sept. 14, 1895.

A private letter to Ralph Turner says: "There was a big excitement here when the steamer arrived. The fire bell rang and the people all gathered on the wharf, waiting for a revolution if the passengers would try to get ashore. Sheriff Hitchcock tried to play a trick, but he got left. He said he had orders to come ashore with the mail; and he tried to, but the people chased him back, and I tell you didn't he swear! Ho!"

There is one thing about the cholera that seems to give universal satisfaction, and that is that it enables some members of the army to earn their salt.

That Tired Feeling

Is a dangerous condition directly due to depleted or impure blood. It should not be allowed to continue, as in its debility the system is especially liable to serious attacks of illness. Hood's Sarsaparilla is the remedy for such a condition, and also for that weakness which prevails at the change of season, climate or life.

committee be appointed to ascertain how much disinfecting material could be obtained.

Mr. Richards thought the undertaking would be a stupendous one.

Mr. Marsden moved that it be the sense of the meeting that the work of disinfecting the infected districts be undertaken at once.

Mr. Gear moved to amend that a committee be appointed to ascertain how much disinfecting material was available. Carried. Messrs. A. V. Gear, T. J. King and Henry Smith were appointed as such committee.

A motion was finally adopted that it was the sense of the meeting that the suggestions of the committee of three appointed by the Board of Health were wise and should be recommended.

Colonel Soper thought much of the distrust of the people of the other islands arose from a want of confidence in the physicians on the Board of Health.

Mr. Lowrey moved that the committee recommend to the board the advisability of calling meetings of all the licensed physicians in the city for consultation in regard to the measures to be adopted. Carried.

The meeting then adjourned to 3 p. m.
